

New Zealand Cartridge Collectors Club

NZCCC AGM AUCTION, Saturday 7 March, 2020 Silverstream Retreat, 3 Reynolds Bach Drive, Stokes Valley, Lower Hutt.

The following items will be offered for sale on behalf of the vendors following the conclusion of the Annual General Meeting.

1. The NZCCC accepts no responsibility for any incorrect description of any lot. Viewing opportunity will precede the auction. Any vendor reserve is indicated by the \$ amount at the end of each lot description.
2. Bids, starting at \$5, will be accepted only from currently financial members or their approved guests and the Auctioneer's decision will be final.
3. An NZCCC vendor commission rate of 10% (minimum \$1) will apply to each lot offered for sale.
4. All lots sold will be delivered to the purchaser or postal bid coordinator as appropriate at the time of sale.
5. A full accounting of sales will be recorded and a list of auction results will be published with the AGM report.
6. Overseas bidders must make private arrangements for the delivery of ammunition.

Postal Bids: Please ensure that postal (absentee) bids are received by Saturday February 29.

Post to Kevan Walsh 4 Milton Road, Northcote Point, or email kevan.walsh@esr.cri.nz. A scan of the postal bid form would be good, but simply emailing the editor with a list of your bids will also be fine.

For postal bids a payment of \$5 is required. Either make a bank deposit (BNZ account 02-0214-0052076-00) and let the Treasurer Kevan Walsh know, or post your bids with a cheque or cash to Kevan. All postal bids (form attached) are binding, but items will not be sent until the appropriate Police authorization has been completed. Upon completion of the auction, successful postal bidders will be contacted to initiate the "Mail Order Sales of Standard Sporting Firearm(s), Airgun(s) and/or Ammunition (Section - 43A Arms Act) process, using Form S. 43A.

<http://www.police.govt.nz/sites/default/files/publications/arms-act-mail-order-sales-application-form-nzp-s43a.pdf>

Bids will be accepted from **financial members only**; and must be in whole dollar increments. No compound or rolling bid instructions will be accepted. Every effort will be made to secure lots at a rate exceeding lesser bids by the smallest margin, and all postal bids will remain confidential to the postal bid coordinator. In the event that a postal bid equals a floor bid, the postal bid will have preference. All postal bidders will be notified after the auction. Completion of the appropriate documentation and payment inclusive of any delivery costs must be received before any item will be released to the buyer. NZCCC cannot provide international delivery and overseas buyers will be responsible for their own delivery arrangements. Any lot found to deviate from the list description will have the postal bids waived on that lot.

Buyers: Please register your attendance and obtain a buyer number. **Registration for the auction (to get a bidding number) will take place on Saturday morning from about 9am.** Buyers of ammunition must hold a current firearms license and its presentation will be required. **If you wish to purchase prohibited ammunition, you will need to produce your "letter of recognition" that identifies you as a bona fide collector of prohibited ammunition. If you have not received your letter, contact Kevan and we will endeavor to hold the items until proof of receipt of a letter can be shown.**

Vendors: Please clearly number all lots as per the auction list and deliver to the organizers prior to midday of the auction date. Any lots not bagged or incorrectly numbered risk non-inclusion in the auction.

Please note that lunch at about midday on Saturday is free for all registered attendees and their partners. At about 12.45 we will take a group photograph of all attendees. At about 6pm we will halt the auction (if needed) for an evening meal, catered for by the venue and paid for individually upon registration.

Note: All lots are described by the vendors as in good condition unless otherwise noted. R\$ = reserve price

All vgc.
660	.219 Donaldson Wasp: Based on the .219 Zipper case, this is another American wildcat from days gone by. Hdst – SUPER SPEED .219 ZIPPER , projectile is a light grey compound, non-magnetic. A varmint go-getter in its day, now something of a scarce oddity.
661	.17 Javelina; .17 Atkinson & Marquart: Another two American hotted up little numbers from the early 1960s, the .17 Javelina uses a .222 REM-UMC rimless case necked down to .17, using a cu. jkted hollow bullet; the .17 A&M uses a rimmed .218 Bee SUPER SPEED case necked down for the .17 projectile, also cu.jkted hollow-point. Both rounds are dummies with struck primers.
662	Four rounds .33 Winchester: PETERS .33 W.C.F. , nickel jacket, lead nose, cu. primer; D.C.Co. .33 W.C.F. nickel primer, cu. jkt, lead nose; W.R.A.CO. .33 W.C.F. nickel primer, nickel jkt, lead nose, tiny " W " on bullet jacket; W.R.A.Co. .33 W.C.F. , nickel primer, cu jkt, lead nose. All gd. cond.
663	Two pkts CAC Supersonic .22 LR: These two full packets, green with yellow art-work, and holding solids

	with the common CAC headstamp, carry the lot number 6564 , and show the transition from one packet style to another. One packet displays the truncated end-flaps, while the other shows rounded end-flaps. Both packets show slight foxing, otherwise very good.
664	Remington 175 th Anniversary Tin of .22 LR cartridges: This classic tin, issued in 1991, is still contained in the original cardboard box, and contains 325 HV LR .22 rounds. The presentation package commemorates Remington's 175 years – 1816 – 1991 – as “America's Oldest Gunmakers”. Box measures 147mm x 95mm x 50mm Excellent condition. Res \$75.

It contains a tin which itself holds seven different packets of Remington .22 LR cartridges -- Target, Thunderbolt, Cyclone, Viper, Yellow Jacket, Golden Bullet solid, Golden Bullet HP (total 350 rounds), all of which are displayed on the back of the package. Great display and collector's piece. Res \$80.
666	Remington Limited Edition .22 pack with engraved pocketknife: This package was produced by Remington in the year 2000. The cardboard pack is still in the original plastic shrink-wrap , and contains 325 loose-pack rounds of Cyclone .22 LR Hi-Speed HP. As well, a window in the top of the box shows a “Remington Racing Collectable Lockback Knife” with 2¼-inch blade . Box measures 120mm x 80mm x 65mm. It also depicts the same Ford racing car as shown on the Racecar Tin in the previous lot. Res \$70.
667	Early Remington .22 LR tin: Green, with the classic Remington logos, this tin, measuring 120mm x 95mm x 70mm, features the “dog-bone” Kleanbore logo on each end and a picture of the company's Bridgeport, Connecticut, manufacturing plant. Originally it held 475 loose-packed rounds, and there are still 15 original nickel-plated LR HV hollow-point cartridges in the tin. Some very minor rust spots, but otherwise in good order.
668	Original five-packet pack of S&B .22 boxes: Still in the original sealed brown-paper packaging, this packet contains five 50-round boxes of Czechoslovakian .22 LR cartridges. Stickers on both ends of the packet indicate the box style. Some slight scuffing on one end, otherwise in vgc.
669	Uncommon NZ proprietary .303 box: This 20-round MT box features the New Century brand distributed by “ J.P.B. FURLEY & CO. LTD. P.O. BOX 22049, OTAHUHU, AUCKLAND. ” All printing and art-work is in red ink on a white box, except for a blue-ink “150 GR S/POINT” stamped on either end. Such boxes were around in the 1970s. Good cond.
670	Full box CAC .303 Aluminium Point rounds: Red and yellow box which is a bit scruffy, and missing top inside flaps, but still looks good and all printing legible. Contains 20 original clean and shiny rounds of aluminium point ammo, with headstamp CAC 50 7. Res \$25.
671	Full box CAC NZFS .270 rounds: These boxes and the ammunition in them were specially produced by CAC for the New Zealand Forest Service at the direction of former founding and later life member of NZCCC, Lynn Harris, a senior member of Forest Service back in the 1960s /70s. He designed the special headstamp used: -- CAC * NZFS * 270 * . The otherwise plain white box carries the label “.270 Win. 150 GR. Soft Nose, N.Z.F.S.” on the front face. This box is in very good condition except for a minor puncture hole in the bottom, and a little discolouration. The contents are all clean, shiny cartridges. Res \$40.
